3.2 Terms and content

These T&C supersede any content, found at any given time in/on the "Alpha Suite", whether in writing or other media format, whether for informative purpose or any other purpose, whether in form of instructions of use or similar.

3.3 The parties to this agreement

The parties to this present agreement / arrangement are only Decode Global and You, and no other party whatsoever.

This present document and the information contained therein, being the T&C and their entire content in relation to the use of "Alpha Suite", forms also integral and binding part of any other client agreement and any other agreed terms and conditions between You and Decode Global (relevant information to be found on <https://decodeglobal.tradesocio.com/>).

Decode Global is a Licensee of "Alpha Suite" by having entered into an agreement with a separate party, outside the scope of this present agreement/arrangement, being a Licensor permitting Decode Global to offer and allow use of "Alpha Suite" by You / Decode Global's clientele / users of Decode Global's services.

Therefore, the use of "Alpha Suite" by You represents an engagement/agreement solely and explicitly between You and Decode Global.

4. System

4.1 Definition of system

The aforesaid "Alpha Suite" is in fact a software package which includes software elements, solutions, platforms, functionalities and infrastructure that facilitate the operation of an online social network arrangement/software, being among others an interface/facility for paid and non-paid information exchange between third parties in relation to financial trading (hereinafter called collectively, in whole and in part, the "System").

4.2 System interaction

The System interacts with the system(s)/platform(s)/facility(ies) of Decode Global in order to exchange relevant information between You, Decode Global, and your trading account and/or other trading accounts at Decode Global, in accordance and as per the use You make of the System. Due to the latter, You may view information of your own Decode Global trading account(s) in the System originating, timely or with delay, accurately or with accidental errors, from the system(s)/platform(s)/facility(ies) of Decode Global. The aforesaid is not in any way implying that the System substitutes or mirrors or represents either the system(s)/platform(s)/facility(ies) of Decode Global or your own Decode Global trading account(s).

4.3 System borderline

Any activity of the System in relation to transaction generation in your trading account (incl. as a "Copier" defined here below) is strictly your personal activity, done in whole by You, to request order/transaction execution from Decode Global, and is in no way whatsoever any form of involvement or activity of Decode Global (nor any of its officers, Directors, employees or affiliates). Any activity similar and/or deemed to be any form of investment service is strictly and solely occurring/taking place between You and Decode Global, and specifically inside the system(s)/platform(s)/facility(ies) of Decode Global, on the relevant terms/agreement between You and Decode Global, and therefore NOT in the System itself.

For any issue you wish to seek support, report or complain about in relation to any activity similar and/or deemed to be any form of investment service, You shall only contact Decode Global in

accordance to any applicable terms in this regard of Decode Global, whether mentioned, covered or not by these present T&C.

4.4 System support

For any issue you wish to seek support, report or complain about in relation to the System and the use of it, You shall email, and Decode Global shall respond and assist to the best of their ability.

4.5 User's System operation

You have the full responsibility to inform yourself about any and all details on the means and ways to use of the System, and all such relevant information (incl. fees, fee schedules & models) and resources are available to You

(i) via communication with the designated support function (as mentioned earlier in T&C: You may email)

(ii) in the System environment itself and its content,

(iii) and in any relevant documentation on same available to You from time to time.

The T&C are not to be construed as a user manual of the System or manual of instruction to use the System.

4.6 User's System monitoring

Any user of the System is responsible to review his/her accounts (as applicable), relevant logs, information, data and statements regularly and is solely responsible to report any mistakes found in this regard within a strict maximum of 24 hours after the time applicable to the relevant logs, information, data and statements. Failure to do so shall mean irrevocable and unquestionable acceptance of account status, relevant logs, information, data and statements applicable at the time.

4.7 Electronic communication

You hereby agree to the use of electronic communication in relation to and during the use of the System and to the electronic delivery of any applicable notices, policies and records in relation to the use of the System.

Furthermore, You hereby accept and deem yourself satisfied with the said electronic communication and explicitly do not require nor demand an original (non-electronic) signature or delivery or retention of non-electronic records.

5. User activities and control

5.1 Activities

For the purposes of this present agreement with, use of System by, and T&C agreed with You, the following statements/terms/phrases

Copy Trade

Copy Trading

Copy or follow or replicate a trade or transaction

Copy or follow or replicate a Master

Copy or follow or replicate a Trader

shall altogether and each separately mean:

The collective acts of You or equivalently of a user-party / user-side person (the "Copier") to make such arrangements in order to

(i) receive information by the System on the trade(s)/transaction(s) of another trader-party / trader-side, accepting to be copied by/exchange information with you, (equivalently the "Master" or the "Trader") performed for its/his/her own account; AND

(ii) determine and set the System's parameters/rules/criteria for performing own trade(s)/transaction(s) at Decode Global whether based or not on the information referred to in point (i) above; AND

(iii) instruct Decode Global, via/in your trading account at Decode Global, appropriately for the execution of the trade(s)/transaction(s) deriving from points (i) and (ii) here above.

Risks apply and stem from uncertainties involved in third party Copy Trade. Before deciding to Copy Trade you should carefully consider your investment objectives, level of experience, and risk appetite. If in doubt you should seek advice and consultation from an independent advisor specialized on the subject.

5.2 Users

By using the System, You are putting an arrangement in place, by yourself and under your sole control, in order to

Act as a Copier,

Or Copy Trade,

Or otherwise help yourself generate own trading transactions in your trading account at Decode Global,

and/or

Act as a Master/Trader,

Or otherwise exchange information with other users of the System on a paid or non-paid basis,

until such time that You decide to cease the said arrangement given the applicable System' rules engaged and controls at your disposal.

Risks apply and stem from uncertainties involved in Copy Trade. Before deciding to Copy Trade you should carefully consider your investment objectives, level of experience, and risk appetite. If in doubt you should seek advice and consultation from an independent advisor specialized on the subject.

5.3 Resulting trading

Where You instruct Decode Global appropriately, via/in your trading account at Decode Global, with request for execution of trade(s)/transaction(s) deriving from the act of Copy Trade in the System, the actual order handling (if applicable) and execution of transaction, relevant process, or failure thereof occurs completely and solely inside the system(s)/platform(s)/facility(ies) of Decode Global, equivalently at Decode Global, and NOT in the System.

Where You instruct Decode Global appropriately, via/in your trading account at Decode Global, with request for execution of trade(s)/transaction(s) deriving from the act of Copy Trade in the System, the actual execution of transaction may end up different from the details entailed in the said

instruction of yours derived from Copy Trade, due to technological factors, market price volatility, instrument liquidity, and all such other factors that affect execution of financial transactions.

Therefore, in the case of the performance of any investment service, the client agreement and any other agreed terms and conditions between You and Decode Global (relevant information to be found on <https://decodeglobal.tradesocio.com/>) apply.

5.4 Control

The System allows You a level of control during the process of Copy Trade, therefore, depending on what control You choose to exercise during the process (modifications, changes, cancellations, etc.), the process may also not turn out to be replication of a trade of a Master/Trader.

5.5 Optional third party account opening

If the System interface You view presents means and ways or a channel to open one or additional trading account(s) at Decode Global, then this area and these functionalities are completely external to the System, and are owned and controlled by Decode Global where the actual account opening process is taking place. The System is neither Decode Global, nor acting as a type of Broker/Manager itself.

If the System interface You view presents means and ways or a channel to provide funding/payment details to Decode Global and/or effect funding/payment you're your trading account(s) at Decode Global, then this area and these functionalities are completely external to the System, and are owned and controlled by Decode Global where the actual funding/payment process is taking place.

6. Masters/Traders

6.1 Regulatory status

No Master/Trader using/operating within the System, **nor** You, if and when you act/operate as a Master/Trader within the System, have been granted, in any way, by Decode Global, a type of license or permission to conduct any form of paid or unpaid regulated/licensable activity,

6.2 Fees

Whenever You choose and agree to Copy Trade with a Master/Trader, You accept the fee requirements or conditional fees of the corresponding Master/Trader (whether these are determined by Master/Trader or otherwise) as applicable from time to time, and You become irrevocably obliged to settle such fees if and when these arise and are due from your trading account(s) at Decode Global to the corresponding trading account of the Master/Trader at Decode Global. Furthermore, it remains your irrevocable responsibility to ensure funding of your trading account at Decode Global to be in position to settle the aforesaid fee obligations to a Master/Trader.

6.3 Settlement transfers

When you have agreed to Copy Trade a Master(s) /Trader(s), or act as a Master/Trader to a Copier(s) who does Copy Trade from You,

You hereby irrevocably and unquestionably grant Decode Global, the permission to accept the System's instruction to debit or credit your trading account(s) at Decode Global, by means of an outgoing transfer to a Master/Trader (trading account at Decode Global) You owe fees to or an

incoming transfer from a Copier (trading account at Decode Global) who owes fees to You, as your explicit instruction (request or acceptance of transfer as applicable) to Decode Global for internal transfer between trading accounts within Decode Global.

As long as the System evidences genuine Copy Trade to have given rise to the required internal transfer of fees as above, Decode Global is granted the permission by You to automatically approve such transfer. Decode Global reserves the right to reject any such transfer instructed/requested if in any doubt as to its lawfulness.

The System may at its discretion send message to you with the details of the aforesaid instruction for your records. The System provides Decode Global with the details of the aforesaid instruction for Decode Global records.

7. Responsibilities

7.1 User's main responsibility

You, as a user of the System, have control and responsibility over all interaction with, information exchange with, Copy Trade with, and use of information of any other User. Decode Global only provides you the opportunity to access/use the System for your own personal use.

7.2 No liability

Decode Global will not accept liability for any loss or damage, including without limitation to, any loss of profit, which may arise directly or indirectly from use of and/or reliance on use of information exchanged and/or acted upon within or with the System.

Decode Global does not in any way guarantee the correctness, neither check or verify the correctness, of information communicated or shown to You by a Master/Trader.

Decode Global cannot guarantee that the information presented to You during your use of the System is complete, accurate, current, or error-free.

- (iv) any offering of any form of investment-management-like service to any user of the System
- (v) any offering of any form of investment-like service to any user of the System

The account You have in the System is a user-account for the purpose of using the System, and not a trading account like the one You have in Decode Global.

You are operating in a system/software environment where each user, whether Copier or Master/Trader or otherwise applicable, have the option of choice to exchange information, Copy Trade, and/or otherwise interact or not with each other at their own individual discretion each. No such latter action/interaction mentioned here is in any way enforced on to you by Decode Global or any other entity, person, or party.

Any opinions, comments, alerts, reports, news, research, analyses, prices, performances or other information contained on the System and presented to You are generated and derived generated by Copier(s), Master(s) /Trader(s) and other user(s) of the System, and do not constitute any form of investment advice or personalized recommendation by or on behalf of Decode Global.

The offering of the System by Decode Global to You and the use by You of the System in any way feasible and agreed here, do not constitute any form of portfolio-/asset-/money-/investment-management by or on behalf of Decode Global. For the avoidance of any doubt on the latter, Decode Global
